### KEY COMPETENCIES

**Quality Leadership**

Test Strategy · Release Governance & Go/No-Go · Risk-Based Testing · Defect Triage · Agile / Scrum

**Automation & Testing**

Playwright (JavaScript) · AI-Assisted Testing (Claude) · API Testing · Regression & E2E · Postman · Selenium

**Tools & Data Stores**

Git & GitLab CI/CD · Jira · PostgreSQL · Elasticsearch · RabbitMQ · Python Debugging

### EDUCATION

**Scaler Academy**

AI Forward Deployed Engineer Program
Oct 2026 – Oct 2027 (in progress)

**Amrita School of Engineering**

B.Tech, Electronics & Instrumentation
2006 – 2010

### CERTIFICATIONS

- Technical Product Management
- Agile Foundations & Scrum
- Prompt Engineering for Generative AI

### RECOGNITION

**VMware CIO Award (FY22)**

Recognized for the URTM SaaS commerce transformation.

# ABHISHEK HANASOGE

**QA LEAD | QUALITY ENGINEERING & AUTOMATION**

## EXECUTIVE SUMMARY

Accomplished QA Leader and Staff Quality Engineer with 15 years of experience architecting test strategies, release readiness, and automation for enterprise software. Proven record leading QA teams of up to 17 engineers across threat intelligence platforms, cloud licensing, and enterprise SaaS commerce. Hands-on in Playwright (JavaScript), API testing, multi-node deployment qualification, and AI-assisted engineering with Claude. VMware CIO Award recipient (FY22).

## PROFESSIONAL EXPERIENCE

**EclecticIQ**
**Senior QA Engineer**
Sep 2024 – Present

- Anchor release quality for the EclecticIQ Intelligence Center (releases 3.5 to 3.10), a threat intelligence platform trusted by government agencies, national CERTs, and Fortune 500 security operations.
- Validated LLM-powered AI features, Observable Risk Scoring, Intelligence Compass, and custom STIX objects.
- Uncovered 257 defects (16 critical, 60 high-severity); 94% test case effectiveness, 2% production defect leakage, 6% UAT leakage.
- Validated STIX 1.x/2.0/2.1 and TAXII ingestion, outgoing feeds, transformers, and deduplication; verified MITRE ATT&CK v18-to-v19 migrations with seeded fixtures.
- Qualified multi-node blue-green deployments; diagnosed anomalies across PostgreSQL, Elasticsearch, and RabbitMQ, tracing Python backend issues to specific code paths.
- Pioneered AI-assisted Playwright (JavaScript) E2E suites with Claude, improving regression coverage, test design, and root-cause isolation.

**Palo Alto Networks**
**Senior Staff Quality Engineer (Lead)**
Jan 2024 – Sep 2024

- Led 8 QA engineers across customer service portal licensing, enterprise tenancy, and Salesforce service workstreams.
- Directed qualification of licensing middleware and SnapLogic/XML integrations across physical and virtual firewall appliances.
- Validated Salesforce support case lifecycles, taxonomy changes, and SLA reporting.

QA Lead & Staff QE

**CAREER & PROJECTS**

Professional experience

AI-Assisted Projects

## PROFESSIONAL EXPERIENCE

**VMware — Senior QA Engineer & Track Lead**

Aug 2019 – Dec 2023

- Led a 17-member global QA team for Unified Route to Market (URTM), covering sales-led, partner-channel, and marketplace SaaS launches.
- Owned quality for the transition from perpetual licensing to subscription SaaS models.
- Led zero-downtime E2E testing for the online store migration from Digital River to Adobe Magento (orders, licensing, revenue recognition).
- Architected testing for US Federal & Defense service vouchers across Salesforce CPQ, Oracle Order Management, and Changepoint.
- Received the VMware CIO Award (FY22).

**VMware — QA Engineer II**

Jul 2016 – Jul 2019

- Validated migration of 6M+ customer profiles from Oracle to Lightwave Directory with active-active disaster recovery.
- Validated re-architecture of customer support into microservices backed by MongoDB and Kafka.
- Governed migration of 600+ transactional email templates from Eloqua to SendGrid in 5 months.
- QA lead for the documentation platform (Elasticsearch, Drupal, SDL), coordinating 10+ engineers across time zones.

**VMware — QA Engineer I**

Nov 2013 – Jun 2016

- Tested VMware web properties and Adobe Experience Manager (AEM) migration; cross-browser and mobile testing with Sauce Labs and DeviceAnywhere.

**Cognizant Technology Solutions**
**Program Analyst**

May 2011 – Nov 2013

- Functional and E2E integration testing for Comcast's US e-commerce site, Sitecore CMS, and Omniture analytics; built Selenium scripts.

## AI-ASSISTED PROJECTS

**Pura Foundation — NGO Donation Platform**

Built and shipped a donation platform for an NGO with payment integration, using Claude for AI-assisted development.

**RentHome — Property Rental Application**

Built a property rental application using Claude, turning requirements into a working product.
